

Third Party Claims

Market Valuations on Fee-for Service Basis
from 10 August 2010

Salvage Network

Valuation Estimates for Third Party Claims

- Salvage Network will now charge for the provision of market valuations (pre-accident value estimates) from Tuesday **10 August 2010**
- **Fee for service basis** – generally in range of \$22 - \$44 per valuation depending on State/Territory and the type of vehicle (passenger vehicle, unique car, truck etc)

Guaranteed Purchase Offers on Salvage will continue to be provided FREE of charge

- **Why use this service?** An independent valuation may assist in resolving contested claims or in determining whether the vehicle will be treated as a total loss.
- Salvage Network takes into consideration the factors that determine the **resale value** of the vehicle on the open market prior to the accident, with allowance made for the condition of the vehicle, odometer reading, previous WOVR status, additions or modifications.
